High School	May 2015

INTERSHIP EXPERIENCE

CETPA INFOTECH PVT. LTD. , Sector 2, Greater Noida, Uttar Pradesh 203207	June-July 2019
---	----------------

- Learnt ,created and completed my first ever live project which was an android application “IMS”.
- The experience and knowledge I gained working and learning there proved to be of utter importance to me as it trained me in many things like working in a team, working with deadlines, and learning new things.

PROJECTS

Institute Management System , Noida.	June-July 2019
---	----------------

- The Institute Management System is an android application which has been made to reduce the maintenance of Manual Database Registers that the institute needs to maintain the student records.
- It is a mobile application which could be easily accessed by the students and could get the details of the various programmes offered by the institute and could get them registered from there itself.

Canteen Automation System, GLA University ,Mathura.	Aug - Nov 2019
--	----------------

- Canteen Automation System enables the end users to register online, read and select the food from e-menu card and order food online.
- The users can directly order the food to the chef online by using this application.
- Thus it will help organization in better utilization of resources.

Django Web Application	Aug - Nov 2019
-------------------------------	----------------

- The Django Web Application named “Blog” is a blogging website where different users can write different posts.

Cool Bean Bags Web Application	Aug - Nov 2019
---------------------------------------	----------------

- It is an e-commerce website that is used to sell Bean Bags.
- Created using Web Technologies.
